Tropical Science

The quarterly Journal
of The Tropical Products Institute

EDITOR:
G. B. PICKERING, M.A., B.Sc., D.Phil., A.R.I.C.

PRODUCTION EDITOR:
Miss M. KERSHAW, B.Com.

1967
Volume IX

LONDON
HER MAJESTY'S STATIONERY OFFICE
1968

Contributions, or inquiries concerning articles in this journal, should be addressed to The Editor, *Tropical Science*, Tropical Products Institute, 56-62, Gray's Inn Road, London, W.C.1.

Tropical Science is distributed on behalf of the Tropical Products Institute by Her Majesty's Stationery Office, to whom subscriptions should be sent. The address is: Her Majesty's Stationery Office, B5 Subscriptions, P.O. Box 569, London, S.E.1.

Commencing with the next issue of *Tropical Science*, Volume X, No. 1, the subscription will be raised from 34s. to 42s. per annum including postage. Despite higher costs, this increase is the first to have taken place since 1963.

Contents

ARTICLES *page*

The Future for Dairying in the West Indies. By P. Mahadevan, *University of the West Indies*. 5

The Training of Overseas Personnel at the Tropical Products Institute. By L. H. Greenwood-Barton, *Tropical Products Institute*. . . 13

The Fruit Industries in Latin America. By G. Maliphant, *University of the West Indies* 20

Toxic Fungi, with Special Reference to Aflatoxin. By J. M. Barnes, *Medical Research Council Laboratories, Surrey* . . . 64

Some Oilseeds from Tropical Herbaceous Crops. By J. A. Cornelius and W. D. Raymond, *Tropical Products Institute* . . . 75

Nitrogen Fixing Capacity of *Calapogonium* and *Pueraria*. By O.L. Oke, *University of Ife, Ibadan, Nigeria* 90

Comparison of Production Traits Among Strains of White Leghorn, Egyptian Baladi, and Fayoumi Breeds of Chickens. By F. R. Ampy, M. A. Khan, and N. J. Daghir, *American University of Beirut, Lebanon* 94

The Investigation of Tropical Medicinal Plants: Pharmacological Properties of some alkaloids from *Pithecolobium saman* and *Strychnos toxifera*. By B. E. Leonard and H. S. A. Sherratt . 122

Marketing Essential Oils. By W.A. Ennever, *R. C. Treatt & Co. Ltd., London* 136

Nitrogen Fixing Capacity of Guar Bean. By O. L. Oke, *University of Ife, Ibadan, Nigeria* 144

Aflatoxin in the Groundnut Crop at Harvest in Northern Nigeria. By D. McDonald and C. Harkness, *Institute for Agricultural Research, Ahmadu Bello University, Nigeria* 148

The Ortanique Orange. By K. E. Magnus, V. Nugent and C. V. Bent, *University of the West Indies* 182

Aflatoxin—A Summary of Recent Work. By F. G. Peers, *Tropical Products Institute* 186

ARTICLES—continued *page*

Harvesting of Shattering Sesame. By H. A. van Rheenen, *Agricultural Research Station, Mokwa, Northern Nigeria* 204

Build-up of Free Fatty Acid in Northern Nigerian Groundnuts. By D. Halliday, *Nigerian Stored Products Research Institute, Kano, Nigeria* 211

BOOK REVIEWS 46, 104, 162, 238

NEWS ROUND-UP 1, 59, 117, 177

BIBLIOGRAPHIES 50, 107, 167, 243

LIST OF REPORTS PUBLISHED BY TROPICAL PRODUCTS INSTITUTE 49, 106, 166, 242

page

Aflatoxin,
toxic fungi with special reference to, ... 64
in the groundnut crop at harvest in Northern Nigeria . . 148
a summary of recent work 186
and build-up of free fatty acid in Nigerian groundnuts . . 211
Africa and the Common Market. By OKIGBO, P.N.C. (Book review) . 238
AMPY, F. R., KHAN, M. A., and DAGHIR, N. J., comparison of production traits among different breeds of chickens 94

BARNES, J. H., toxic fungi with special reference to aflatoxin . . 64
BENT, C. V., the ortanique orange 182
Bibliographies 50, 107, 167, 243
Biological Methods of Crop Pest Control, by ORDISH, G. (Book Review) 240
Book Reviews 46, 104, 162, 238
Building Construction in Warm Climates. By FULLERTON, R. L. (Book Review) 162

Calapogonium and *Pueraria,* nitrogen fixing capacity of, ... 90
Chickens, comparison of production traits among strains of White Leghorn, Egyptian Baladi, and Fayoumi breeds . . . 94
CORNELIUS, J. A., and RAYMOND, W. D., some oilseeds from tropical herbaceous crops 75

DAGHIR, N. J., KHAN, M. A., and AMPY, F. R., comparison of production traits among chickens 94
Dairying, future for, in the West Indies 5

Economics of Irrigation. By CLARK, Colin. (Book Review) . . . 104
Economic Survey of the New Hebrides. By WILSON J. S. G. (Book Review) 163
Egyptian Baladi, White Leghorn and Fayoumi breeds of chickens; comparison of production traits 94
ENNEVER, W. A., marketing of essential oils 136
Essential oils, marketing of, ... 136

Farming in Hot Countries. By THOMAS, A. (Book Review) . . . 238
Fayoumi, Egyptian Baladi and White Leghorn breeds of chickens: comparison of production traits 94
Free fatty acid in Nigerian groundnuts 211
Fruit industries in Latin America 20
Fungi, toxic, with special reference to aflatoxin 64

GREENWOOD-BARTON, L. H., training of overseas personnel . . 13
Groundnuts,
aflatoxin in crop at harvest, ... 148
free fatty acid in Nigerian, ... 211
Guar bean, nitrogen fixing capacity of, ... 144

page

HALLIDAY, D., free fatty acid in Nigerian groundnuts 211
HARKNESS, C., and MCDONALD, D., aflatoxin in the groundnut crop at harvest in Northern Nigeria 148
Harvesting of shattering sesame 204
Herbaceous crops, tropical, oilseeds from, ... 75

Introductory Food Science. By SMITH, D. B., and WALTERS, A. H. (Book Review) 46
Investigation of tropical medicinal plants; pharmacological properties of some alkaloids from *Pithecolobium saman* and *Strychnos toxifera* 122
Ixodid Ticks of Tanzania. By YEOMAN, G. H. and WALKER J. B. (Book Review) 47

KHAN, M. A., AMPY, F. R., and DAGHIR, N. J., comparison of production traits of different breeds of chickens 94

LEONARD, B. E., and SHERRATT, H. S. A., investigation of tropical medicinal plants; pharmacological properties of some alkaloids from *Pithecolobium saman* and *Strychnos toxifera* 122

MCDONALD, D., and HARKNESS, C., aflatoxin in groundnuts . . 148
MAGNUS, K. E., BENT, C. V., and NUGENT, V., the ortanique orange . 182
MAHADEVAN, P., future for dairying in the West Indies 5

Malaria in Africa. By COLBOURNE M. (Book Review) 164
MALIPHANT, G. K., fruit industries in Latin America 20
Medicinal plants, investigation of *Pithecolobium saman* and *Strychnos toxifera* 122

News Round-Up 1, 59, 117, 177
Nitrogen
fixing capacity of *Calapogonium* and *Pueraria* 90
fixing capacity of Guar bean 144
NUGENT, V., MAGNUS, K. E., and BENT, C. V., the ortanique orange

Oils, essential, marketing of 136
Oilseeds from tropical herbaceous crops 75
OKE, O. L.,
Nitrogen fixing capacity of *Calapogonium* and *Pueraria* . . 90
Nitrogen fixing capacity of Guar bean 144
Orange, the Ortanique 182

PEERS, F. G., a summary of recent work on aflatoxin . . . 186
Personnel, training of overseas at the Tropical Products Institute . 13
Pithecolobium saman and *Strychnos toxifera*, pharmacological properties of some alkaloids from, ... 122
Proceedings of the International Seed Testing Association: International Rules for Seed Testing. Ed. SCHOOREL, A. F. (Book Review) . . 46
Pueraria and *Calapogonium*, nitrogen fixing capacity of . . . 90

RAYMOND, W. D., and CORNELIUS, J. A., Oilseeds from tropical crops . 75
Reports published by the Tropical Products Institute . 48, 106, 166, 242

Sesame, harvesting of, ... 204
SHERRATT, H. S. A., and LEONARD, B. E.,
investigation of tropical medicinal plants; pharmacological properties of some alkaloids from *Pithecolobium saman* and *Strychnos* toxifera 122

page

Strychnos toxifera and *Pithecolobium saman;* pharmacological properties of some alkaloids from, ... 122

Toxic fungi with special reference to aflatoxin 64
Training of overseas personnel at Tropical Products Institute . . 13
Tropical Products Institute, reports of 48, 106, 166, 242

Tropical Vegetables. By TERRA, G. J. A. (Book Review) . . 162

VAN RHEENEN, H. A., harvesting of shattering sesame . . . 204

Wealth of India, Raw Materials: N-Pe (with index) scientist-in-charge, DESHAPRABHU, S. B. (Book Review) 104
West Indies, future for dairying in, ... 5
White Leghorn, Egyptian Baladi and Fayoumi breeds of chickens; comparison of production traits 94

Yams—An Account of the Nature, Origins, Cultivation and Utilization of the Useful Members of the Diascoreae. By COURSEY, D. G. (Book Review) 239

LIST OF PLATES AND FIGURES

THE FUTURE FOR DAIRYING IN THE WEST INDIES

page

PLATE I
Pure-bred Holstein cows on Pangola pastures under coconut trees in Puerto Rico . . . *facing* 8

PLATE II
Three Jamaica Hope cows at Bodles. These cows gave in their highest 305-day lactations 2,055, 1,953, and 1,392 gallons respectively . . *facing* 9

THE TRAINING OF OVERSEAS PERSONNEL AT THE TROPICAL PRODUCTS INSTITUTE 1956-66.

PLATE I
Mr. L. H. Greenwood-Barton discusses training with four senior administrators from Nigeria . *facing* 16

PLATE II
T.P.I. brochure provides full details of training at the Tropical Products Institute . . . *facing* 17

THE FRUIT INDUSTRIES OF LATIN AMERICA

PLATE I
Gonodonta pyrgo butterflies sucking the fruit of a citrus tree . . . . . *facing* 36

PLATE II
Banana leaf attacked by virus . . . *between* 36 and 37

PLATE III
Banana plantation treated with Bordeaux mixture for Sigatoka (leaf spot) disease control . . *between* 36 and 37

PLATE IV
Mature apples . . . . . *between* 36 and 37

PLATE V
Harvesting ripe pineapples. The leaves of the pineapple plant are razor sharp and workers must be amply protected in the fields . . *between* 36 and 37

PLATE VI
Peach branch injured by Scolytid beetle . . *facing* 37

PLATE VII
Damage done to citrus leaves by 'bachacos' ants . *facing* 37

SOME OIL SEEDS FROM TROPICAL HERBACEOUS CROPS

PLATE I
Sesame breeding at Mokwa, Northern Nigeria . *facing* 78

PLATE II
Groundnut plant in flower, Northern Nigeria . *between* 78 and 79

PLATE III
Cotton (*Gossypium barbodense*) showing mature bolls . . . . . *between* 78 and 79

PLATE IV *page*
Castor plant at Mokwa, Northern Nigeria . . *between* 78 and 79
PLATE V
Flowers and fruit of castor, Northern Nigeria . *between* 78 and 79
PLATES VI and VII
Hand shellers for groundnuts, Northern Nigeria . *between* 78 and 79
PLATE VIII
Winnowing machine for groundnuts . . . *between* 78 and 79
PLATE IX
Groundnut pyramids, Kano . . . . . *facing* 79

COMPARISON OF PRODUCTION TRAITS AMONG STRAINS OF WHITE LEGHORN, EGYPTIAN BALADI AND FAYOUMI BREEDS OF CHICKENS

PLATE I
A flock of Fayoumi chickens . . . . *facing* 94
PLATE II
Instrument for measuring albumen height . . *facing* 95

THE INVESTIGATION OF TROPICAL MEDICINAL PLANTS: PHARMACOLOGICAL PROPERTIES OF SOME ALKALOIDS FROM *PITHECOLOBIUM SAMAN* AND *STRYCHNOS TOXIFERA*

Figure 1
Some polyamines found in nature . . . 128
Figure 2
Some indole alkaloids found in plants . . 131

MARKETING ESSENTIAL OILS

PLATE I
Bourbon type geranium plants in E. Africa . . 136
PLATE II
A geranium distillery with two still units . . *between* 136 and 137
PLATE III
An experimental plantation of lavender in E. Africa *between* 136 and 137
PLATE IV
Lime fruit . . . . . *between* 136 and 137
PLATE V
An experimental plantation of E. Indian lemongrass in Africa . . . . . *between* 136 and 137
PLATE VI
An experimental still heated by electricity . . *between* 136 and 137
PLATE VII
An experimental still heated by a log fire . . *between* 136 and 137
PLATE VIII
A modern still in Central Africa . . . *facing* 137

THE ORTANIQUE ORANGE

PLATE I
Ortanique (left) and valencia (right) oranges . *facing* 184
PLATE II
Shoot bearing immature ortanique . . . *facing* 184

HARVESTING OF SHATTERING SESAME

PLATE I — *page*
Experiment with different harvesting methods. Jute sacks under the treatments catch shattering seeds . . . . . *facing* 208
PLATE II
Rack (A) method . . . . . *between* 208 and 209
PLATE III
Rack (C) method . . . . . *between* 208 and 209
PLATE IV
Pole (D) method . . . . . *between* 208 and 209
PLATE V
Fence (A) method . . . . . *between* 208 and 209
PLATE VI
Fence (B) method . . . . . *between* 208 and 209
PLATE VII
Shock method . . . . . *between* 208 and 209
PLATE VIII
Seeds carried away by ants to places of storage . *facing* 209
PLATE IX
Details of Plate VIII . . . . . *facing* 209
Figure 1
Cumulative amount of seed collected daily for Fence A in Experiment 5, 1964, as percentage of the total amount collected 209

BUILD-UP OF FREE FATTY ACID IN NORTHERN NIGERIAN GROUNDNUTS

PLATE I
Removing a fumigation envelope from a groundnut pyramid . . . . . *facing* 228
PLATE II
Loading groundnuts from a pyramid for despatch to Lagos . . . . . *facing* 228
PLATE III
Weighing groundnuts at a buying station . . *facing* 229
PLATE IV
Produce inspector grading groundnuts . . *facing* 229
PLATE V
Sieving bags of groundnuts to determine insect infestation present . . . . *facing* 229
